

# eurokarst 2018

## BESANÇON

2 - 6 July

The european conference on karst hydrogeology  
and carbonate reservoirs

### Conference topics

- Flow and solute transport in karst
- Innovative metrology
- Modelling
- Speleogenesis
- Heterogeneity of carbonates
- Water management and protection
- Mines, tunnels, and infrastructures
- Management of risks
- Contaminant migration and remediation
- Geomorphology & geometry
- CO<sub>2</sub> and climate change

### Keynote speakers

- Michel Bakalowicz (University of Montpellier)
- Jon Martin (University of Florida)
- Alon Rimmer (IOLR - Israël)
- Yongyong Hao (University of Tianjin)
- Hervé Jourde (University of Montpellier)
